

## RESUME

# KWANWOO JEONG

## WEB DEVELOPER

✉ kwanwoo.jeong@gmail.com

www.kwanwoo.me

github.com/kwanwooi25

## SKILLS

### PROGRAMMING LANGUAGES

HTML / CSS / JavaScript

### FRAMEWORKS

React / Vue / Meteor / Node / Express /  
Sass / MaterialUI / Styled-components

### DATABASES

MongoDB / PostgreSQL

### DESIGN TOOLS

Illustrator / Photoshop

### OTHERS

REST API / AWS / Git / Github / SSH / JWT

## EXPERIENCE (FEATURED PROJECTS)

### Eat Play Sleep - (<http://www.epsapp0.com>)

React / Styled-components  
Node / Express  
PostgreSQL  
AWS (S3 / EC2)

- Web app built with React.js that records baby's activities like feedings, diaper, growth, etc.
- Utilized styled-components and material-ui to style the app.
- Server built with Express in Node.js and deployed to AWS EC2.
- Serves database on AWS RDS using PostgreSQL.

### Employees Directory - (<https://kwanwooi25.github.io/techdegree-project-10>)

HTML / CSS / JavaScript  
RandomUser API

- Simulates employees' directory for a fake startup company using public API (RandomUser API).
- Add, remove and search for employees.
- Display modal for detailed information of an employee.

### Wep App Dashboard - (<https://kwanwooi25.github.io/techdegree-project-9>)

HTML / CSS / JavaScript  
Chart.js / RandomUser API

- Visualize data using Chart.js.
- Get data from public API (RandomUser API).
- Uses local storage to store settings locally.

## EDUCATION

Treehouse Techdegree  
2017 - 2018

Front-End Web Development

Udemy Courses

- The Complete Web Developer in 2019: Zero to Mastery
- Node with React: Fullstack Web Development
